

# YOU MEDIA TEEN LIBRARY

Carlie Mellang • Interior Design Studio 2 • DES 304 - 002 • Spring 2024

## LOCATION:

Milwaukee, WI

## CLIENT:

You Media Teen Learning Program

## RESEARCH:

- Technology and social media can help increase a **library's visibility**
- Digital inclusion provides technology access to everyone
- Providing engagement in libraries through **new technology**
- Breaking the mold of traditional learning

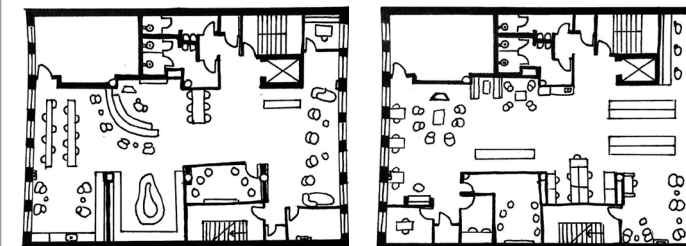

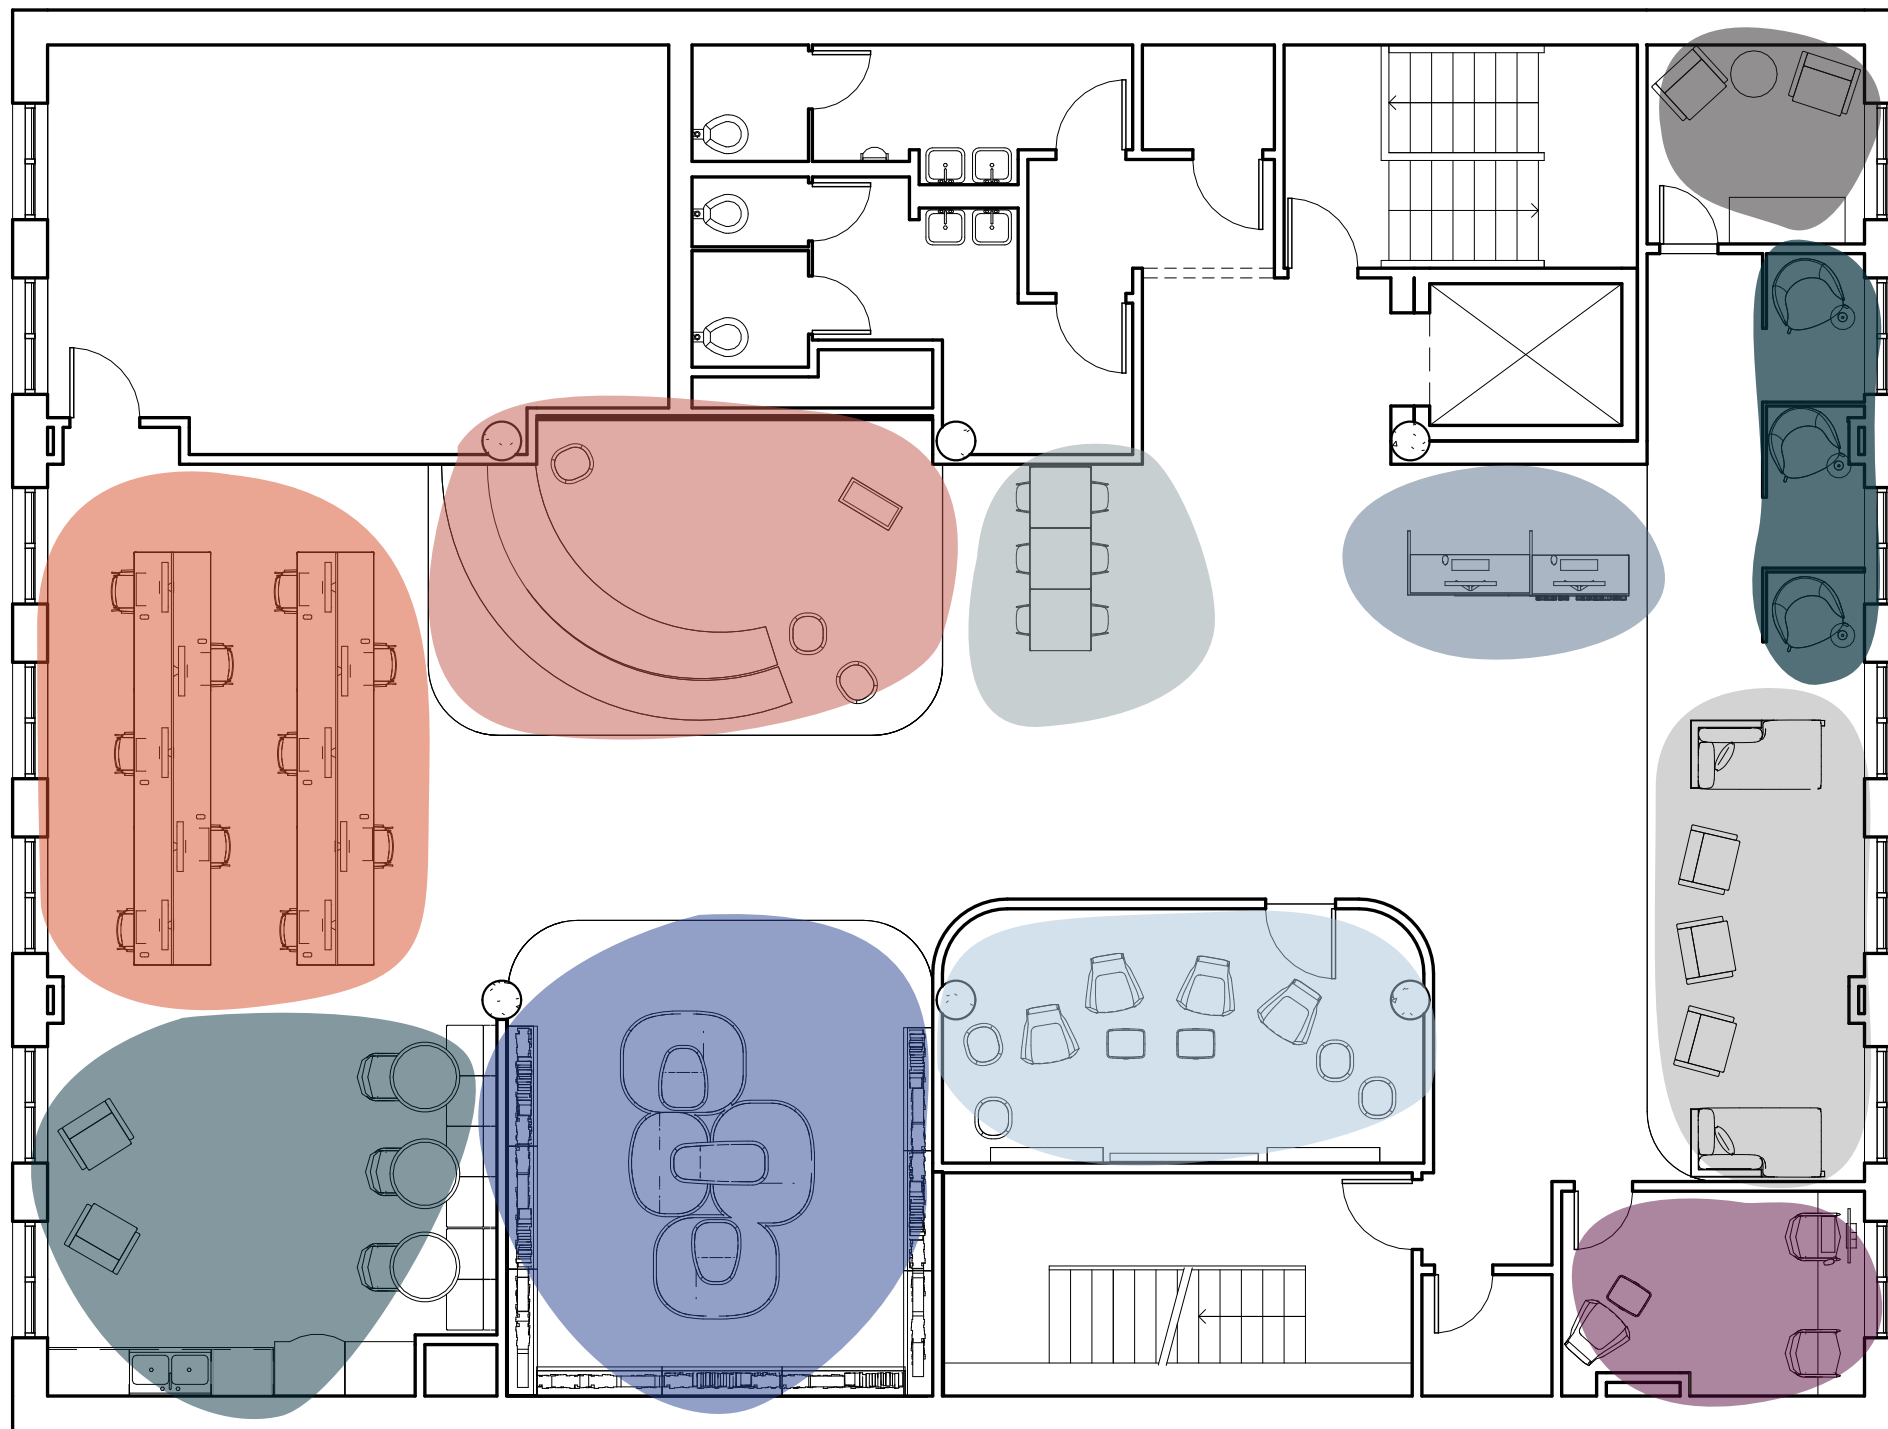

## EXPRESSIVE INGENUITY

This design aspires to cultivate inspiration, specifically focusing on teenagers, to help them grow their skills and have a **creative outlet**. This will be achieved through an **industrial** color palette inspired by the cityscape. The incorporation of street art serves as a **platform** for the youth to express their perspectives on current events. Architectural elements, both linear and curving, are included to craft a dynamic environment. The overarching intent of this design is to establish a space for young individuals, allowing them to feel at ease while actively engaging with the community, paving the way for a **brighter future**.
